

ATTACHMENT J-3 PROTECH LABOR CATEGORY DESCRIPTIONS

Satellites: Draft Labor Categories Descriptions

Category 1: Scientific Services. Examples include (but are not limited to) Astronomy, Atmospheric Sciences, Chemistry, Climatology, Environmental, Geology, Materials Science, Meteorology, Oceanography, Physics, and Space Applications.

Scientific Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 2: Engineering Services. Examples include (but are not limited to) Electrical, Chemical, Electronics, Equipment, General, Materials, and Mechanical.

Engineering Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 3: Analytical Services. Examples include (but not limited to) Computer Science, Mathematics, Operations Research, and Statistics.

Analytical Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 4: Program Operations Services. Examples include (but not limited to) Budget Analysis, Education and Training, Financial Management, International Cooperation, Management and Program Analysis, Program Management, and Technical Writing and Editing.

Program Operations Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 5: Scientific Information Services. Examples include (but not limited to) Data Collection, Data Processing, Image Analysis, Information Systems, Quality Control Inspection, Scientific Applications Programing, Scientific Systems Analysis, and Web Designing.

Scientific Information Services Subcategories

Level 1: See the standard "level 1" definition at the end of this discussion.

Level 2: See the standard "level 2" definition at the end of this discussion.

Level 3: See the standard "level 3" definition at the end of this discussion.

Standard Level Definitions

Advanced degrees from an accredited institution and/or professional credentials from a recognized entity may be cumulatively tallied and substituted for experience. Masters and associates degrees are equivalent to two years of experience; bachelors and doctoral degrees are equivalent to four years of experience. Requirements for specialized degrees, credentials, and experience will be specified at the task order level.

Level 1: Minimum of four years of relevant experience, with up to eight years total relevant experience;

Level 2: Minimum of eight years of relevant experience, with up to sixteen years total relevant experience.

Level 3: Minimum of sixteen years of relevant experience.

Oceans: Draft Labor Category Descriptions

Category 1: Scientific Services. Examples include (but are not limited to) Biological Sciences, Cartography, Chemistry, Ecology, Environmental Protection Science, Geography, Land Surveying, Marine Science, Natural Resources Management, Oceanography, and Remote Sensing.

Scientific Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 2: Engineering Services. Examples include (but are not limited to) Electrical, Electronics, Environmental, Equipment, General, Marine Survey, Materials, and Mechanical.

Engineering Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 3: Analytical Services. Examples include (but are not limited to) Computer Science, Mathematics, Mathematical Statistics, Operations Research, and Statistics.

Analytical Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 4: Program Operations Services. Examples include (but are not limited to) Budget Analysis, Education and Training, Financial Management, International Cooperation, Management and Program Analysis, Program Management, and Technical Writing and Editing.

Program Operations Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 5: Scientific Information Services. Examples include (but are not limited to) Data Collection, Data Processing, Image Analysis, Information Systems, Quality Control Inspection, Scientific Applications Programing, Scientific Systems Analysis, and Web Designing.

Scientific Information Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Standard Level Definitions

Advanced degrees from an accredited institution and/or professional credentials from a recognized entity may be cumulatively tallied and substituted for experience. Masters and associates degrees are equivalent to two years of experience; bachelors and doctoral degrees are equivalent to four years of experience. Requirements for specialized degrees, credentials, and experience will be specified at the task order level.

Level 1: Minimum of four years of relevant experience, with up to seven years total relevant experience;

Level 2: Minimum of seven years of relevant experience, with up to fourteen years total relevant experience.

Level 3: Minimum of fourteen years of relevant experience.

Fisheries: Draft Labor Categories

Category 1: Scientific Services. Examples include (but not limited to) Animal Health, Animal Science, Biological Sciences, Botany, Cartography, Chemistry, Ecology, Environmental Protection Science, Fish Biology, Fish and Wildlife Administration, Genetics, Geography, Land Surveying, Microbiology, Natural Resources Management, Oceanography, Pathology, Plant Protection, Physiology, Soil Conservation, Toxicology, Wildlife Biology, Wildlife Refuge Management, and Zoology.

Scientific Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 2: Engineering Services. Examples include (but not limited to) Electrical, Electronics, Environmental, Equipment, General, Marine Survey, Materials, and Mechanical.

Engineering Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 3: Analytical Services. Examples include (but not limited to) Computer Science, Mathematics, Mathematical Statistics, Operations Research, and Statistics.

Analytical Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 4: Social Science Services. Examples include (but not limited to) Anthropology, Economics, and Social Science.

Economic/Social Science Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 5: Program Operations Services. Examples include (but not limited to) Budget Analysis, Editorial Assistance, Education and Training, Financial Administration, Financial Analysis, Financial Management, Foreign Affairs, Foreign Law, International Cooperation, International Relations, Management and Program Analysis, Management and Program Assistance, Program Management, and Technical Writing and Editing.

Program Operations Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 6: Scientific Information Services. Examples include (but not limited to) Data Collection, Data Processing, Environmental Programing, Image Analysis, Information Systems, Quality Control Inspection, Scientific Applications Programing, Scientific Systems Analysis, and Web Designing.

Scientific Information Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 7: Diving Services. Examples include (but not limited to) Scientific Diving and Working Diving.

Diving Services Subcategories

Level 1: Open water diving certification from an accredited organization with at least 50 logged dives, plus relevant coursework (college or advanced/specialty/technical PADI/NAUI courses) or scientific/working diver experience.

Level 2: Open water diving certification from an accredited organization with at least 100 logged dives, plus relevant coursework (college or specialty PADI/NAUI courses) or scientific/working diver experience.

Level 3: Open water diving certification from an accredited organization with at least 150 logged dives, plus relevant coursework (college or specialty PADI/NAUI courses) or scientific/working diver experience.

Category 8: Veterinary Services. Examples include (but not limited to) Animal Health Technician and Veterinary Medical Science. Credentials must be from programs approved by the National Association of Veterinary Technicians in America; veterinary degrees must be from an institution approved by the American Veterinary Medical Association.

Veterinary Services Subcategories

Level 1: Veterinary assistant credential plus relevant experience working with wild animals.

Level 2: Veterinary technician credential plus relevant experience working with wild animals.

Level 3: Veterinary medicine degree plus relevant experience working with wild animals.

Standard Level Definitions

Advanced degrees from an accredited institution and/or professional credentials from a recognized entity may be cumulatively tallied and substituted for experience. In general, masters and associates degrees are equivalent to two years of experience; bachelors and doctoral degrees are equivalent to four years of experience. Requirements for specialized degrees, credentials, and experience will be specified at the task order level, along with appropriate equivalencies.

Level 1: Minimum one (1) year of relevant experience, with up to seven years total relevant experience; requirements for degrees or credentials will be identified at the task order level.

Level 2: Minimum seven (7) years of relevant experience, with up to 14 years total relevant experience; requirements for advanced degrees or credentials will be identified at the task order level.

Level 3: Minimum 14 years or more of relevant experience; requirements for advanced degrees or credentials will be identified at the task order level.

Weather: Draft Labor Category Descriptions

Category 1: Scientific Services. Examples include (but are not limited to) Atmospheric Sciences, Cartography, Chemistry, Climatology, Environmental, Geography, Meteorology, Oceanography, and Physics.

Scientific Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 2: Engineering Services. Examples include (but not limited to) Computer, Construction, Electrical, Electronics, Equipment, General, Materials, Mechanical, Safety, and Systems Design.

Engineering Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 3: Analytical Services. Examples include (but not limited to) Computer Science, Mathematics, Mathematical Statistics, Operations Research, and Statistics.

Analytical Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 4: Program Operations Services. Examples include (but not limited to) Budget Analysis, Education and Training, Financial Management, International Cooperation, Management and Program Analysis, Program Management, and Technical Writing and Editing.

Program Operations Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 5: Scientific Information Services. Examples include (but not limited to) Data Collection, Data Processing, Image Analysis, Information Systems, Quality Control Inspection, Scientific Applications Programing, Scientific Systems Analysis, and Web Designing.

Scientific Information Services Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Standard Level Definitions

Advanced degrees from an accredited institution and/or professional credentials from a recognized entity may be cumulatively tallied and substituted for experience. Masters and associates degrees are equivalent to two years of experience; bachelors and doctoral degrees are equivalent to four years of experience. Requirements for specialized degrees, credentials, and experience will be specified at the task order level.

Level 1: Minimum of two years of relevant experience, with up to seven years total relevant experience;

Level 2: Minimum of seven years of relevant experience, with up to fourteen years total relevant experience.

Level 3: Minimum of fourteen years of relevant experience.

Enterprise Domain: Draft Labor Category Descriptions

Category 1: Administrative Professional

Administrative Professional Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 2: Budget Analyst

Budget Analyst Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 3: Business Operations Specialist

Business Operations Specialist Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 4: Construction Specialist

Construction Specialist Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 5: Editor/Writer

Editor/Writer Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 6: Engineer

Engineer Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 7: Financial Analyst

Financial Analyst Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 8: Healthcare Professional

Healthcare Professional Subcategories

Level 1: See the standard "level 1" definition at the end of this discussion.

Level 2: See the standard "level 2" definition at the end of this discussion.

Level 3: See the standard "level 3" definition at the end of this discussion.

Category 9: Human Resources Specialist

Human Resources Specialist Subcategories

Level 1: See the standard "level 1" definition at the end of this discussion.

Level 2: See the standard "level 2" definition at the end of this discussion.

Level 3: See the standard "level 3" definition at the end of this discussion.

Category 10: Logistician

Logistician Subcategories

Level 1: See the standard "level 1" definition at the end of this discussion.

Level 2: See the standard "level 2" definition at the end of this discussion.

Level 3: See the standard "level 3" definition at the end of this discussion.

Category 11: Management Analyst

Management Analyst Subcategories

Level 1: See the standard "level 1" definition at the end of this discussion.

Level 2: See the standard "level 2" definition at the end of this discussion.

Level 3: See the standard "level 3" definition at the end of this discussion.

Category 12: Meeting, Convention and Event Planner

Meeting Convention and Event Planner Subcategories

Level 1: See the standard "level 1" definition at the end of this discussion.

Level 2: See the standard "level 2" definition at the end of this discussion.

Level 3: See the standard "level 3" definition at the end of this discussion.

Category 13: Operations Research Analyst

Operations Research Subcategories

Level 1: See the standard "level 1" definition at the end of this discussion.

Level 2: See the standard "level 2" definition at the end of this discussion.

Level 3: See the standard "level 3" definition at the end of this discussion.

Category 14: Public Relations Specialist

Public Relations Specialist Subcategories

Level 1: See the standard "level 1" definition at the end of this discussion.

Level 2: See the standard "level 2" definition at the end of this discussion.

Level 3: See the standard "level 3" definition at the end of this discussion.

Category 15: Scientist

Scientist Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 16: Survey Researcher

Survey Researcher Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Category 17: Training and Development Specialist

Training and Development Subcategories

Level 1: See the standard “level 1” definition at the end of this discussion.

Level 2: See the standard “level 2” definition at the end of this discussion.

Level 3: See the standard “level 3” definition at the end of this discussion.

Standard Level Definitions

Advanced degrees from an accredited institution and/or professional credentials from a recognized entity may be cumulatively tallied and substituted for relevant experience. Masters and associates degrees are equivalent to two years of experience; bachelors and doctoral degrees are equivalent to four years of experience. Requirements for specialized degrees, credentials, and experience will be specified at the task order level.

Level 1: Up to seven years total relevant experience;

Level 2: Minimum of seven years of relevant experience, with up to sixteen years total relevant experience.

Level 3: Minimum of sixteen years of relevant experience.
